

# CFRTP Drone Arm by TAFNEX™

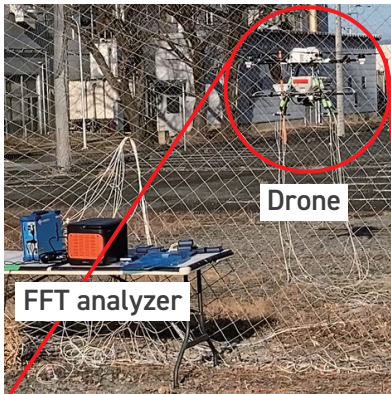

The arms were designed by collaboration with Mitsui Chemicals and TKK-WORKS in Japan

## <Benefits>

- ✓ Being able to reduce the number of parts and weight compared to others  
⇒ 60% fewer parts, 20% less weight
- ✓ Possible to control vibration by internal simulation and evaluation to suit TAFNEX™ CF/PP UD-tape based parts

### ● Vibration evaluation analysis example during hovering
