

Chopped TAFNEX™

How to make Chopped TAFNEX™ ?

Procedure is below.

1st, Slitting mother role : Can slit 12.5mm or 25mm width.

2nd, Chopped with a cutter : Can chop 12.5mm, 15mm, 25mm, and 30mm fiber length.

We can cut into the requested size depend on our equipment capability.

Other special requirements should be discussed with us.
